

# An Important Message from Your Union: **President Barack Obama** **The Leader We Need** **to Get America Back to Work**

President Obama fights for working families. He shares our vision of a nation that invests in good jobs here at home; where everyone pays their fair share; that values providing healthcare for those in need; and where there is a pathway to citizenship for every immigrant worker. He made working families a priority while other leaders sided with corporations and millionaires.

We face a stark choice in 2012. With 25 million Americans looking for full-time work, we can't afford extremist policies or leaders who side with CEOs and the 1 percent. The Republican presidential candidates continue to try to outdo each other on policies that send jobs overseas, give tax breaks to millionaires, give free rein to the Wall Street banks that wrecked our economy, protect tax loopholes for oil companies and enact extreme immigration policies.

**For America's working people and those struggling to find work, the choice is clear—  
President Barack Obama is the right leader for these trying times.**

That's why SEIU members are mobilizing around President Obama to re-elect a president who fights for the 99 percent and a strong middle class.

**In his first term, President Obama has already:**

- Led the effort to pass the American Recovery and Reinvestment Act which helped save jobs and put Americans back to work;
- Passed the Affordable Care Act so that nearly every man, woman and child in America has access to affordable healthcare;
- Enacted tough Wall Street reforms that protect everyday workers and consumers from Wall Street excesses; and
- Continues to demand the passage of the American Jobs Act that will help to put millions of Americans back to work.
